

OUR COMMUNITY THRIVES WHEN WE LIVE UNITED

**United Way of Champaign County
Annual Report**

July 2020 to June 2021

Dear United Way supporters,

As we look out the window and see the leaves turn and farmers in the fields, we are immensely grateful for all the good things that have happened in the past year.

We are thankful for community leaders who said “Yes” when asked to work together. We have met weekly to discuss how to address the needs of our residents during the pandemic. How fortunate we are in our corner of the world to be surrounded by caring, effective leaders.

We are grateful for your continued financial support. Once again, the people of Champaign County stepped up to help our neighbors with pressing needs. Together we have provided more grant dollars than ever to local organizations and programs making a difference. We could not be prouder of the way our grant partners have innovated and continued to serve.

Last winter, we conducted a community survey to better understand the needs in our area. We heard a common refrain: Our community faces many longstanding problems, and our neighbors who are hurting want United Way to target our resources towards addressing the root causes of these problems. One survey respondent said, *“Addressing the root cause of the issues our community faces is the most important and impactful thing that United Way could possibly do!”*

We are grateful for the candid feedback, as it has been our guiding light as our organization embarked on a journey of change. Our volunteers have spent the past few months studying the data, bringing in community experts, and listening to those who are experiencing challenges in their daily lives. We have emerged from this process with a bold new strategy.

Your United Way has laser-focused our Community Impact work, concentrating our grantmaking on specific areas of highest need. Our first three grant areas are Early Grade Success, Child Well-Being, and United for Equity. You can read more about them in this report. We know that by concentrating our resources into these specific areas, we can change the statistics around academic achievement, trauma, abuse and neglect, and discrimination.

This new strategy would not be complete without robust support for Community Essentials such as food, housing, and healthcare. United Way will continue to award grants to provide these critical services.

We know as a Staff and a Board that we can do hard things. In fact, we must. As another survey respondent said, *“It is time for an organization to take a bold stand on important local issues, and truly lead with time and money and people, on a changemaking scale. United Way can be that organization”.*

We hope you are proud of the accomplishments of your United Way this past year. As we approach our 100th Anniversary in 2024, we feel that we are just getting started. Our community will thrive when we Live United. Thank you for your support!

Sue Grey
President & CEO

Carrie Eisenmenger
Board Chair

OUR MISSION

United Way of Champaign County brings people and resources together to create positive change and lasting impact in our community.

OUR CREDO

We fight for the Health, Education and Financial Stability of every person in Champaign County.

OUR CORE VALUES

Leadership, partnership, responsiveness, integrity and good governance.

UNITED FOR EQUITY

At United Way we respect, value, and celebrate the unique attributes, characteristics, and perspectives that make each person who they are. We also believe that bringing diverse individuals together allows us to collectively and more effectively address the issues that face our communities. We're pleased to share United Way's latest work in Diversity, Equity and Inclusion.

New Board Leadership Position: Diversity, Equity and Inclusion Chair

United Way's Board of Directors have added a new Executive Committee position to the organization's Bylaws. The Executive Committee is United Way's highest level of decision-making. The Diversity, Equity and Inclusion Chair will ensure UWCC exceeds United Way Worldwide's DEI membership requirements, oversee Board DEI training, work with the Community Impact Committee to oversee the allocation of grants to ensure equitable distribution of grant funds to underrepresented populations. We are pleased to welcome **Valena Claiborne** as our first Chair of Diversity, Equity and Inclusion.

United for Equity Grants

United Way is committed to building a more equitable Champaign County. In 2021, we awarded \$151,000 in grants to a cohort of local programs which address inequities in our community. Each grant program is working to Create Community Awareness, Encourage Collaboration, Create More Firsts, or Break Down Barriers to Success.

United Way has intentionally partnered with programs that are led by members of the communities they seek to serve and programs that have demonstrated a deep history of authentic partnership with the community. 2/3 of clients served by *United for Equity* grant partners are Black, Indigenous, or People of Color. We look forward to growing this partnership in the coming years.

21 Week Equity Challenge

Systemic racism creates obstacles for Black and Indigenous People and People of Color, upholds all other forms of oppression, and is an injustice to us all. United Way of Champaign County is committed to educating our community and changing systems to eliminate these obstacles.

United Way of Champaign County partnered with United Way of Metro Chicago and United Way of Illinois to launch the 21 Week Equity Challenge. This challenge provided weekly information on topics such as segregation, redlining, and disparate health outcomes, as well as opportunities for personal reflection. Over 14,000 Illinoisans participated in the Challenge, with over 1,000 right here in Champaign County. The challenge is available at www.unitedwayillinois.org

Building Leadership

Nonprofit leadership must continue to diversify to better serve the community. United Way is working to build strong pathways for underrepresented populations to enter decision-making roles at nonprofits, with a special emphasis on Board of Director positions. Additionally, we are working alongside leaders to develop a local mentoring program for Black nonprofit executives.

Elevating Marginalized Voices

The voices of those closest to the challenge at hand must be heard if any program wants to make progress on a community issue. All United Way Community Change grants require that the organization has an advisory team made up of program participants.

TOCQUEVILLE SOCIETY

Annual gift of \$10,000 or more

Tocqueville Society membership represents Pillar gifts of \$10,000 or more from individuals and couples. Last year, 31 Tocqueville Society members donated \$760,000.

The Tocqueville Society is named in honor of 19th century French historian Alexis de Tocqueville, who observed how well Americans helped each other in times of need. He recognized, applauded and immortalized the voluntary spirit that lives in America's heart and remains the foundation of the United Way. Today, our Tocqueville Society members continue to build upon the vision of our founders by providing opportunities for a better tomorrow.

COMMUNITY IMPACT FUND

To address our community's most persistent and systemic problems, we must have an organized, proven strategy. We call it **Community Impact**.

With a gift to the Community Impact Fund, you become part of United Way's work to re-imagining a more equitable and resilient community - one where more of our students are graduating prepared for success at college or on the job, more local families are financially stable, and more neighbors are living healthy lives. Our commitment to Diversity, Equity, and Inclusion is woven throughout this entire process - because every person deserves to thrive.

UNITED WAY'S THREE-PART PLAN

Community Change Grants

These grants provide highly targeted multi-year funding to programs and collaborations that are working alongside United Way to solve our community's most challenging problems in health, education, and financial stability. Together, we are fighting for solutions to longstanding issues and removing barriers that prevent our community from thriving. Our current Community Change areas are **Early Grade Level Success**, **United for Equity**, and **Child Well-Being**.

Community Building Work

United Way brings nonprofits, businesses, government, and people together to innovate and find new solutions to community problems.

Community Essentials Grants

Every person in our community deserves the opportunity to thrive.

To get there, we must strengthen the safety net of services that support and lift up our neighbors. At various times in our life, every single one of us has needed the support of others. United Way's Community Essentials collaboration provides a helping hand. By working together with local programs, we are strengthening the critical social services which help our neighbors not just survive, but thrive.

COMMUNITY ESSENTIALS

*Food. Water. Housing. Healthcare. Clothing. Identification.
Access to technology.*

These are the critical things people need to thrive in our world today. **With many of our community's households struggling to make ends meet, our community must have a strong safety net.** Together we can prevent crisis, provide stability, and support those navigating a complex social service system.

UNITED, WE PROVIDE A HELPING HAND

Our Community Essentials grants help people meet their physical needs while providing assistance navigating complex human service systems. Our grants also recognize that access to technology is not a luxury, it is a necessity to apply for a job, pay bills, connect with healthcare and education, and so much more.

Many of our neighbors who are ALICE families, low-wage workers, people of color, LGBTQ+ individuals, and those with disabilities need increased access to services. **Our grants support programs that are working to increase access to services, welcome all, and actively practice nondiscrimination.**

Long-Term Commitment

Community Essentials by definition are critical services, and we're committed to providing support in this area for years to come. **In 2021, United Way awarded \$588,000 in grants for Community Essentials.**

Each grant program is working towards at least one of the following Goals:

- Help people meet their physical needs
- Assist people with accessing and navigating complex human service systems

EARLY GRADE LEVEL SUCCESS

Success in life begins with a quality education. And yet, many Champaign County children and youth enter school unprepared, lacking the support they need to strengthen their literacy and math skills and stay on track in school. Ultimately this leads to fewer students graduating high school and finding a career.

United Way of Champaign County is fighting to change the statistics. **In order to build a community where every child can achieve their full potential, we must start with early education.**

Comprehensive and Collaborative Approach

We've brought together a cohort of programs whose work starts before birth and supports children and families through third grade. Our grants and collaborations provide:

- Home visits by nurses, social workers, and early educators to low-income mothers of children 0-5, providing support, resources, diapers, and age-appropriate educational toys and books
- Born Learning Trails in area parks, providing free early education activities to all
- Developmental screenings and early intervention programming for children experiencing special needs or with delays in development
- Free Getting Ready for Kindergarten calendars for all 3, 4, and 5-year-olds, in English, Spanish and French
- Summer programming to prepare both children and parents for kindergarten
- Volunteer programs in our schools, providing kindergartners one-on-one help with reading and math
- After-school and summertime academic support programs for K-3 students of diverse backgrounds, with a focus on reading, math, and science curriculum

Community Issues require Community Solutions

The work doesn't stop with grants – because United Way is much more than a fundraiser. We're bringing everyone to the table to build lasting solutions to ensure all children start school strong. We're engaging people as reading volunteers. We're working with communities to share the importance of attending school every day. We're providing books and support to our schools. And we're following the data, putting an extra focus on supporting our Black and low-income students and families.

Investing Big in our Smallest Community Members

In 2021, United Way awarded \$700,000 in grants to local programs working to improve Early Grade Level Success across Champaign County.

Each grant program is working towards the same three goals:

- Increase the number of students demonstrating kindergarten readiness by 10%
- Increase the number of low-income and Black male students meeting Math and English Language Arts standards by 10%
- Decrease chronic absenteeism by 10%

CHILD WELL-BEING

All children in Champaign County deserve to grow up in a supportive, loving home. This is critical if we wish for every child to achieve their full potential. The dual risks of child abuse and neglect and mental health issues threaten the well-being of children and can have significant negative long-term impacts.

“Childhood Abuse and Neglect (CAN) and other Adverse Childhood Experiences (ACEs) may cause high levels of chronic stress (i.e., toxic stress) that rewires the brain’s developing architecture (i.e., connections between cognitive, emotional, and social development). As a result, children who experience CAN and other ACEs are more likely to engage in risky behaviors in adolescence and have health problems as adults. These problems include alcohol abuse, depression, drug abuse (including opioids), eating disorders, obesity, sexually transmitted diseases, smoking, suicide, violence towards others, and many chronic diseases.

- Centers for Disease Control, Division of Violence Prevention

Building Stronger Families

Child abuse and neglect is preventable. It’s also one of Champaign County’s top areas of concern, according to both United Way’s Community Survey and the Champaign Community Health Improvement Plan.

United Way of Champaign County’s newest Community Change goal is to improve Child Well-Being. We can prevent child maltreatment and build healthier families through mental health and trauma-responsive services. Together with community partners, we are assembling a collaborative network of community programs which will strengthen the protective factors which prevent child abuse and neglect, and increase the availability of mental health services for adults.

It will take all of us, United, to achieve this goal. According the US Department of Health and Human services, “research shows that parents and caregivers who have support—from family, friends, neighbors, and their communities—are more likely to provide safe and healthy homes for their children. When parents lack this support or feel isolated, they may be more likely to make poor decisions that can lead to neglect or abuse”.

United Way’s Child Well-Being Goals

- Fewer children ages 0-5 will experience maltreatment
- Children 0-18 in substitute care will not experience additional or repeated maltreatment
- Parents & caregivers in zip codes 61821 and 61802 will have increased access to supports that reduce stress and the risk of child maltreatment
- The community will have increased capacity to address the needs of children and adults who have experienced trauma
- Children and adults who have experienced trauma will have increased support available

MANY WAYS TO GIVE BACK

You have spent years supporting your community. You have invested in lives, changing them for the better as our neighbors benefited from your generosity - becoming more safe, secure, and stable. You have been able to give to a cause most dear to your heart and had the peace of mind to know your dollars were being put to use to meet the greatest need. Let us help you continue that support!

Most people are familiar with giving via payroll deduction, credit card or check. Did you know there are many other ways you can make your United Way gift? Here are just a few. *To learn more, contact Becca Guyette, Chief Development Officer.*

Give from your IRA

Did you know that taxpayers 72 and older are required to take annual distributions from their IRA? These required minimum distributions (RMDs) are ultimately subject to taxation. But there's a way to save on your taxes – and support our community. You can donate up to \$100,000 from your IRA each year to charitable organizations such as United Way – completely tax free. Simply let your broker of fund manager know you would like to donate all or a part of you RMD as a Qualified Charitable Distribution (QCD) to United Way.

Gift of Stock

Transferring appreciated stocks allows you to avoid paying capital gains tax and deduct the full amount of your gift from your tax return. To initiate a stock transfer, simply have your portfolio manager call United Way of Champaign County's Finance Department for instructions.

Include United Way in your Will

A will is important for everyone and can be useful regardless of estate size. It can also be a way to support the people and causes important to you. Having a will ensures that your wishes are known. United Way has partnered with FreeWill, where you can create a free will online in as little as 20 minutes. Visit FreeWill.com/UnitedWay to learn more.

Endowment Gifts

When you make an endowment gift, you create a steady stream of annual income to forever support United Way's critical work. Endowment gifts may be made at any time or can be created as part of an estate plan.

UNITED WAY INNOVATION: ePLEDGE

United Way is committed to making charitable giving simple, secure, and accessible. This year, we launched ePledge for all our Workplace Giving Campaign partners. Unlike paper pledge forms, this innovative digital Workplace Giving Campaign management tool helps our volunteer Campaign Coordinators reach out to every employee, regardless of physical work location. In addition to top security features, we're pleased to share that ePledge has reduced United Way's use of paper pledge forms by 75%. Your United Way is leading the way in giving technology in downstate Illinois!

DIAPER BANK

United Way's *Bottom Line Diaper Bank* obtains many of its diapers through collection drives at local companies. Many of those drives didn't occur this year because of office closures and remote work. Our diaper supply began to dwindle, and we knew we needed a big hand to get back on track.

Heartland Coca-Cola answered the call. They worked together with Niemann Foods and Walmart to donate 87,000 diapers! This was enough to provide a six-month supply for our diaper partners. During a time where family budgets were stretched thinner than ever, a United Way collaboration has made the world of a difference to area families.

Twenty-eight Bronze Pillars wish to remain anonymous.

SPONSOR SPOTLIGHT: COLDWELL BANKER COMMERCIAL DEVONSHIRE REALTY

United Way's *Pillar Leadership Giving Program* is supported by a group of local businesses which understand the foundational importance of Pillars to United Way of Champaign County's Annual Campaign success. These sponsors enable United Way to keep you informed by underwriting the costs of our Pillar Celebration, Impact Newsletter, and this very Annual Report!

Coldwell Banker Commercial Devonshire Realty is one of these Pillar Sponsors. Since 1977 Devonshire Realty has been a leader in the central Illinois real estate market. In 1999, Devonshire Realty established a national presence via an affiliation with Coldwell Banker Commercial. Since that time, Coldwell Banker Commercial

Devonshire Realty has been the largest commercial brokerage firm in downstate Illinois.

The office serves more than 100 communities in central Illinois with the support of more than 3,000 Coldwell Banker Commercial affiliates nationwide. As a leader in the central Illinois area, Coldwell Banker Commercial Devonshire Realty is recognized as both a high-quality developer and a premier provider of commercial services consisting of brokerage, development, and property management.

In addition to supporting the Pillar Leadership Giving program, they have hosted a Diaper Drive for our Bottom Line Diaper Bank and have given back generously to our community in many ways. United Way is especially grateful for the support they provided as we navigated our move to our new office building in 2018.

WOMEN UNITED

Women United ignites the power of women – who bring the passion, expertise, and resources needed to get things done – to create lasting change in their communities.

In Champaign County, we tackle the issues that matter most. We empower each other to transform the very conditions in which people live.

With more than 700 members and \$600,000 invested in local solutions, we're able to create change in targeted ways, while also being part of United Way's bigger picture and broader cause. Two of our big wins include the establishment of a scholarship fund for women attending Parkland College and granting critical financial support to the Emergency Shelter for Families.

You may have heard of our big event, Power of the Purse! We also host quarterly Lunch and Learn seminars, Volunteer Days, and more events to engage deeper with community issues and make a difference right here in Champaign County. We're excited to see Women United continue to grow.

Women United held a "Women and Wisdom Unite" luncheon in September to hear from several programs that are part of United Way's work in Early Grade Level Success. If you're interested in learning more about Women United events, please call our office and ask to speak with Paula.

CORPORATE GIFTS, SPONSORSHIP AND FOUNDATION SUPPORT
